Richpeace Digitizer

RPFP-NM-DI-1117×1524-NA-1P220

Features

1. Easily reading paper patterns, convenient positioning, simple operation, accurately reading patterns, enable to speed up the design. It is a powerful tool for traditional manual drawing digitization.
2. Digitizer can be used in various fields, such as clothing industry, fashion design, surveying and mapping, mining, stamping and environmental protection, etc. It is compatible with a variety of CAD and supports more than 30 digital formats. It has friendly interface and strong compatibility. It's easy to connect compatible CAD brands, such as AutoCAD, MapGIS, Citystar, Mapinfo, Arcinfo, MicroStation, SuperMap, Openinfo, Optitex, Arise, Billy, Cyber, GmCAD, GenaMap, ViewGIS, MapEngin, ILWIS, SvCAD, DoCAD and Tajima series, etc.

Reference Models

Models	Working Area	Installation Area (L×W×H)
RPFP-NM-DI-914×1219-NA-1P220	36" × 48"	1600mm×1400mm×1300mm
RPFP-NM-DI-1117×1524-NA-1P220	44" × 60"	1800mm×1500mm×1300mm

Parameters

Operating System	Microsoft XP/WIN7/WIN10	Power	Single-phase AC 220V (110V) ±10% 50/60Hz
Hardware Port	Standard RS-232	Other Options	Simple stand (standard), Lifting stand (optional)

Electric Remote-control Lifting Stand

Wireless control of stand height adjustment and angle rotating, instead of traditional manual adjustment.

1. Main frame is Aerospace Aluminum Profile material, portable, and firm structure .
2. Equipped with hybrid motor cylinders, mute design, with less noise.
3. Angle adjustment speed 120°/min, max. adjustable angle 0°-70°.
4. Lifting speed: 400mm/min., equipped with four independent lift, wireless control, easy operation.
5. Wireless control within 20meters, adjustable anywhere.
6. High power supply ensures stable operation of the entire machine.
7. Direct Current control, ensures whole-machine energized safer.
8. Provided with lifting-limit and self-locking, ensures safety of the whole machine operation.
